DISCOVER THE POWER **HARRIS GOVERN + HARRIS ERP**

40+ Years of Innovation

For over 40 years, Harris has delivered modern software solutions tailored to the public sector. Our systems leverage advanced technology, automated workflows, and complimentary upgrades to streamline operations.

From tax and CAMA management to accounting, payroll, and HR, Harris provides a unified, single-vendor approach. Explore in this program how our integrated solutions simplify management, boost efficiency, and meet your organization's needs with a seamless end-to-end system.

Connecting departments that optimize operations

Connecting departments through integrated software is key to optimizing operations. By combining the strengths of Harris ERP and Harris Govern, our solution creates a seamless flow of information across departments—from tax management and CAMA to finance, payroll, and HR.

This integrated approach streamlines workflows, reduces data silos, and enhances collaboration. The result is increased efficiency, improved decision-making, and a more unified organization.

With Harris, you gain a comprehensive system tailored to meet the specific needs of the public sector, helping you maximize productivity and achieve better outcomes.

THE VALUE OF HARRIS SOFTWARE

Streamlined Operations

Manage tax, collections, and financial processes on a unified platform, eliminating duplicate data entry while ensuring accuracy with custom tabular and spatial reporting.

Simplified Tax Collection

Easily calculate tax differences, generate bills, refunds, and abatements using our intuitive interface.

Comprehensive General Ledger

Track receivables and outstanding balances seamlessly, acting as the “bank” for other departments.

Automated Workflow Integration

Boost productivity by automating billing, collections, and cash receipting with fully configurable workflows.

Customer Empowerment

Provide 24/7 online access for account inquiries, utility billing, and inspection scheduling.

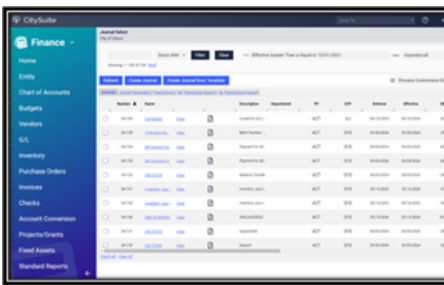

Harris Software at Work: Choosing an Integrated Solution

“The software is so easy to use we are able to provide read only access to our external auditors. This has provided a tremendous time savings to both the audit team as well as City staff.”

Randy Bartels, Auditor, City of Lima, Ohio

ADAPTABLE AND CONFIGURABLE SOFTWARE

We recognize the challenges municipal employees face when seeking software that meets both current and future requirements. That's why our web-based architecture and flexible design offer a limitless, configurable, and adaptable solution that evolves with your needs. Our software integrates seamlessly with your business processes—no need to adjust your workflows to fit our system.

Harris ERP Modern Workspace

Harris Govern Sketch Validation

Minimal Tech Investment: Access via web browsers without costly hardware upgrades, supporting open platforms like Windows, Linux, and Unix.

Intuitive Interface: Customize layouts, perform drill-down analysis, and use live links for effortless navigation.

Effortless Data Management: Run queries, export data to Excel, Word, or PDF, and reduce support calls with user-friendly data handling.

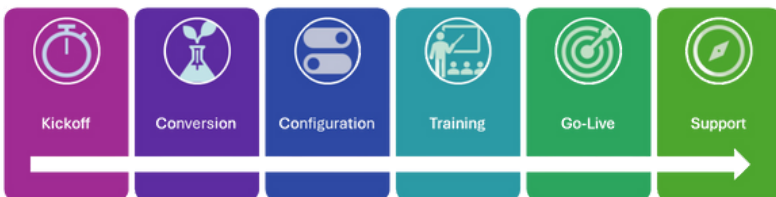

Microsoft Office Integration: Use familiar Office tools to merge letters, send emails, and export data for a seamless user experience.

SEAMLESS IMPLEMENTATION PROCESS

Support Every Step of The Way

With extensive experience in software implementation, we've successfully developed, deployed, and supported solutions for over 327 customers across 30 states and 5 Canadian provinces. Our dedicated team ensures that every aspect of the implementation process is carefully planned, fully resourced, and meticulously measured, providing comprehensive support every step of the way.
